

# HOW TO ORDER

Thank you for choosing an Estex Quality Product. We hope the following information makes your order processing easier!

**Fax:** 1-770-964-7534 24 Hour order line - Catalog items shipped same or next day.

**Telephone:** 1-800-749-1224 (U.S.) Call anytime between 7:00 a.m. and  
1-770-964-3322 (Local) 5:30 p.m. Eastern Standard Time  
1-770-964-3324 (Local) Monday thru Friday

**Mail:** ESTEX MANUFACTURING CO. INC.

P.O. Box 368  
402 E. Broad Street  
Fairburn, GA 30213-1561

For fast service credit card customers call: 1-800-749-1224

FAX: 1-770-964-7534

Remember to include:

- \* Complete Name on Card
- \* Card Number
- \* Expiration Date

## NEED HELP?

- Do you have questions about a product?
- Need to place an order?
- Track your delivery?
- Set up E.D.I. Program?

- Do you need a Regional Sales Representative?
- Information on how to contact your local Estex distributor?
- Need product literature?

Ask for :

Karen Wilkes E-mail: kwilkes@estexmfg.com

Margie Swenson E-mail: mswenson@estexmfg.com

Visit us on the web at [www.estexmfg.com](http://www.estexmfg.com)

Our products are designed, tooled and manufactured to be the industry leader in Quality as well as competitive pricing. We want you to feel that an Estex Product is always more valuable than the price you pay.

---

## PRICES AND TERMS

All orders are subject to the following terms and conditions.

1. Prices are subject to change without notice. Orders will be billed at price in effect at time of shipment.
2. F.O. B. Fairburn, GA.
3. Open terms are net 30 days. Interest of 1.5% per month added to past due accounts.
4. Minimum order net billing is \$35.00.
5. We accept VISA and MasterCard.

### SPECIAL SIZES, PRODUCTS AND VARIATIONS

Special sizes and products will be quoted on request.

Contact Estex Manufacturing Company with specific details for quotations.

---

## RETURNING MERCHANDISE - RESTOCKING CHARGE

No merchandise is to be returned without prior approval from ESTEX MANUFACTURING CO., INC. Credit will be granted only for current purchases of standard catalog listed products received in re-saleable condition, transportation prepaid.

## MANUFACTURER'S WARRANTY

All Estex products are warranted against defects in material and workmanship under normal use and service. Estex's obligation under this warranty is limited to replacing at its factory any part or parts which shall, within 30 days after delivery of such equipment of the original purchaser, be returned to it and which its examination shall disclose to its satisfaction to have been defective; this warranty being expressly in lieu of all warranties, expressed or implied, and all other obligations or liabilities on its part.

It is expressly agreed that there are no warranties, expressed or implied, made hereunder, except the warranty against defective materials and workmanship set forth above.

## CAD CAM SYSTEM

From Pattern to Layout to Finished Cut our computerized system is the "State of the Art"

Improved sewing accuracy due to high quality cut pieces. This translates to a better and higher quality product for Estex customers.

We at Estex are constantly striving to provide you, our customer, the benefits of all the latest technology.

More exact layout for a better "fit" on finished bags

Computerized cutter increases capacity and accuracy.

Automated spreader saves time by spreading layers of fabric more quickly.

C.A.D / C.A.M.

## CANVAS DUCK

“Important general properties of canvas are strength, tear resistance, puncture resistance, weather resistance, flexibility and durability. Flame resistance and U.V. resistance treatments may be applied”.<sup>1</sup>

The word DUCK comes from the Dutch word “DOEK” which they used for a tightly woven fabric. Because of this tight weave, and the natural oils of the cotton fiber, this fabric tends to resist water . . . “like water off a duck’s back”.

## VINYL/NYLON LAMINATED AND COATED FABRICS

“Nylon is widely used for lighter weight laminated and coated fabrics as it imports higher strength, toughness, flexibility, waterproofness and durability”.<sup>2</sup> Both laminates and coated fabrics resist water and soiling.

### LAMINATES

“A simple laminated industrial fabric is a sandwich construction made of a loosely woven or knit fabric (scrim) that is locked between two sheets of thermoplastic or rubber elastomer.”<sup>3</sup>

Because there must be ample space between the threads to adhere the outer layers together, laminates are generally not as strong as coated fabrics.

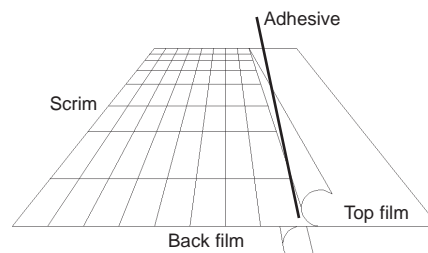

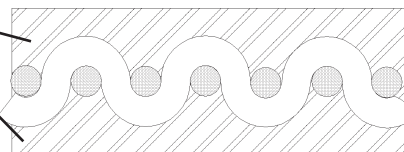

FIGURE 5.6 Schematic of a laminate

### COATEDS

“A coated industrial fabric consists of a closely woven or knit base fabric that is coated on one or both sides with a man-made or natural elastomer.

. . . Coated fabrics have outstanding abrasion and outdoor weathering resistance properties.”<sup>4</sup>

Coatings on both surfaces

## NYLON CORDURA

“Nylon has exceptional abrasion resistance . . . Other major benefits include its resistance to most strong bases, dilute acids and solvents, insects and most micro-organisms. They have a low moisture regain and dry quickly when wet. It is more resistant to sunlight than the natural fibers.”<sup>5</sup>

“Nylon, due to its higher strength, has many advantages over cotton and rayon fabrics. Fabrics made of nylon have high abrasion resistance, tear and tensile strength.”<sup>6</sup>

“Cordura is an 11 oz. air textured nylon fabric”<sup>7</sup> . . . Urethane and other plastic coatings are used to enhance water resistance.

## ESTEX

The Leader in New Product Development

**“Hard Body”** - The rigid blue liner that adds strength and longer wear.

Is an extruded polyblend of natural polyolefin resins, non-toxic & environmentally safe. Excellent chemical resistance to solvents, acids, alkalines, also extremely durable. Will not tear or crack within temperature range of +150°/-100° Fahrenheit. This product is virtually indestructible!

- ADDS RIGIDITY TO ALL CANVAS & VINYL BAGS.
- ADDS STRENGTH FOR LONGER WEAR.
- EASIER TO SLIDE TOOLS IN AND OUT OF POCKETS.
- PROTECTS RUBBER GOODS FROM PUNCTURE AND CREASING.
- WILL NOT CRACK IN COLD WEATHER
- WILL NOT BREAK IF CRUSHED.

#1815-7

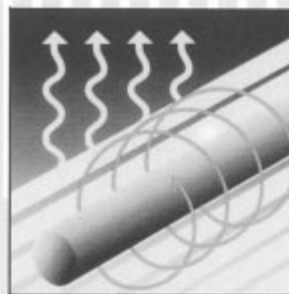

INOSIL CORROSION SHIELD

What is INOSIL Corrosion Shield?

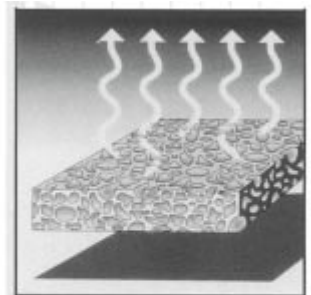

INOSIL corrosion shield is a revolutionary, high tech and entirely unique material which, when used properly, prevents rust and corrosion from occurring on metal tools, equipment and components. INOSIL Corrosion Shield is a highly engineered microporous, polyethylene sheet, impregnated with a blend of oils and other corrosion inhibitors. Metal objects are shielded against the combined effects of heat, moisture and other corrosive elements which cause oxidation - damage that can mean significant financial loss.

INOSIL products, used properly:

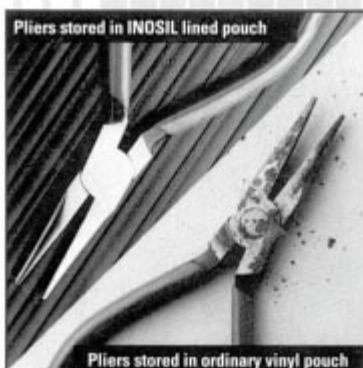

- Shield against the combined effects of heat, moisture and other corrosion elements which cause oxidation
- Eliminate the need for rust-preventative coatings
- Eliminate costly, messy greasing and degreasing processes
- Keep tools and equipment lubricated
- Are safe and easy to handle

INOSIL® corrosion shield protects in two ways: by direct surface flow and through vaporization. Corrosion inhibitors are gradually released to coat stored items with a microscopic layer of protection.

This cross-section shows the microscopic pores of INOSIL® corrosion shield holding a blend of oils and other corrosion inhibitors which are released to coat stored items.

Test results show that INOSIL® corrosion shield provides superior corrosion protection. The pliers on the top were stored in an INOSIL® tool pouch while the pliers on the bottom were stored in an ordinary vinyl pouch for the same period of time and under the same conditions.

INOSIL products are made from environmentally safe materials that have no special handling requirements. INOSIL corrosion shield is not harmful to most painted surfaces, plastics, rubber, or natural and synthetic fibers.

#1000  
With  
leather ties.

#1020  
with inside pockets,  
plus belt loops.

#1045  
-with quick release snaps  
-extra large opening  
-stiffener sewn in hem to  
keep bag open.

#1040  
Also has inside  
pocket.

Also available  
in heavyweight  
yellow vinyl.

10" x 6" x 3"

#1047-S

8 1/2" x 8" x 4"

#1046 belt loops

#1046-HB

8" x 9" x 2"

A **bar tack** is a  
compact way to rein-  
force stress points.  
The stitch is locked  
and will not ravel.

"A quality pouch"-  
Real leather reinforcements,  
top quality hardware, and  
quick easy belt attachment.

# 1061

8 1/2" x 10" x 2"

**Our  
Most  
Popular**

Now available in  
heavyweight vinyl.

# 1061-1

Also available with:

#1061-ISS - Quick release on inside of pouch

#1061-NP - No inside pocket

All of the pouches great  
features, plus water  
resistance.

# Nut & Bolt Bags

# Nut & Bolt Pouches

Rope in hem helps keep top open

Tapered bottom draws parts toward center of bag.

#1110

Rigid top ring

7" diam. x 10"h

#1110

#1113

6 1/2" diam. x 8 3/4" h

#1110 and #1113 stay open wide enough for a gloved hand.

#1105

7" l x 4" w x 8 1/4" h

Belt loops

Belt loop

tool pocket both sides

#1100

8" l x 2 1/2" w x 11 1/2" h

#1112

10" diam. x 3 1/2" h

These bags hold and separate different sizes or different parts for fast, easy use and identification.

#1110- Two inside pockets, web handle with snap.

#1112- Four compartment bag with drawstring.

#1113- Two outside pockets, web handle with snap.

Quick release snap

Rounded edges force parts to center of bag.

#1120

6 1/2" l x 3" w x 8 1/2" h

plus reinforced bottom

Metal reinforcements keep bag open.

#1136-CP tool pouch with reinforced top  
6 1/2" l x 2" w x 8" h

Rounded edges-small parts don't get trapped in corners.

# Holsters & Pouches

leather ties

#1150 is our best top grain leather pouch with leather belt ties. This heavy leather pouch will last much longer than canvas pouches.

#1150

6 1/2" l x 3 1/4" w x 6 3/4" h

## TOOL FROG

#1129

belt loops

Pocket for socket wrench, adjustable wrench, and screwdrivers.

Leather adjustment strap is the strongest in the industry.

Both #1152 and #1152-WTH are made from soft leather.

All Estex leather pouches are made from top grain leather for a lifetime of use.

#1152

8 1/2" l x 1 1/2" w x 9" h

Three inside pockets

#1152-WTH

8 1/2" l x 1 1/2" w x 9" h

## LEATHER TOOL HOLSTERS

All holsters come with rivet kit for attachment to your belt.

formed pockets

#2608-C

Hard bottom

### Storage Bag for Fall Restraint Harness

Protect your harness from:

- Punctures or cuts - if you put it in your tool bag with gaffs and skinning knife
- Tangling - harness can wrap around equipment or tools
- Dirt and oil - if your harness gets oily from your truck bed, the oil will transfer to your clothing
- Mildew and smells - our canvas bag will absorb moisture from your harness and allow it to evaporate out of the bag

Our vinyl utility bags are often used to store safety related items. One popular use is an automotive safety kit for the trunk of cars or behind the seat of trucks. It would include such things as:

Blankets	Flares	Reflective vest
Sunscreen	Tire chains	First aide kit
Flashlight	Small tools	Tire repair
Rainwear

Made from heavyweight vinyl nylon

Small Tool & Utility Bags

# Safety

In our constant commitment to provide the best product possible, Estex Mfg. uses "State-of-the-Art" High-Frequency Dielectric heat sealing equipment. Heat sealing or "fusing" fabric seams eliminates stitch holes and therefore makes the end product more water resistant. This is particularly helpful on tarps and some bucket covers.

## Organizer Belt Pouch

Comes with adjustable nylon web belt.

Holds all your personal items plus I.D. Badge so you can keep everything with you and not have items fall out of your pockets.

Has a pen/pencil pocket with Velcro flap. All pockets have either Velcro or zipper closures.

## Face Shield and Hard Hat

### Bag

Prevent scratching of face shield

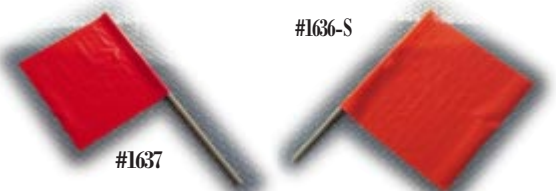

Keep dirt and dust out of your Hard Hat

## Danger flags

## Safety Flags ("S" indicates mesh fabric)

Estex oval buckets are your best value for price and durability. They are built to last and provide the user with enough variety of pocket configurations to meet every need. (see drawings below)

Molded top ring

Extra heavy canvas for maximum durability

Brass grommets in hook holes

PVC supports to keep bucket open

Durable molded bottom

15\"/>

All Estex oval buckets have grommets placed so they can be used with Estex aerial tool aprons.

Canvas- heavy canvas fabric makes these buckets sturdy yet economical.

#1820

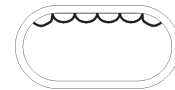

#### Pocket Configuration

6 Tool pockets on one side

#1800

#1800-HB with Hard Body

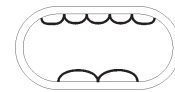

#1818

7 Tool pockets on two sides

#1810

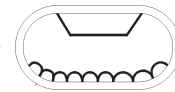

#1810-HB with Hard Body

9 Tool pockets plus one pouch

#1818

#1818-7 with Inosil

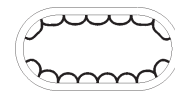

15 Tool pockets

#1820

#1820-HB with Hard Body

#1820-H-HB with handles and Hard Body

#1820-7 with Inosil

Hard body bags ( -HB ) polyethylene liner keeps these bags totally rigid but still allows inside pockets to organize tools.

Now an alternative to tool trays that gives you both rigid construction plus organization of tools.

Optional carry handles

#1820-H-HB

#1820-HB

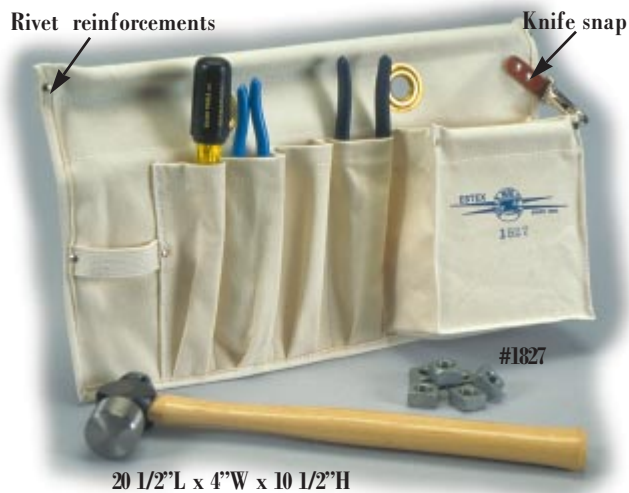

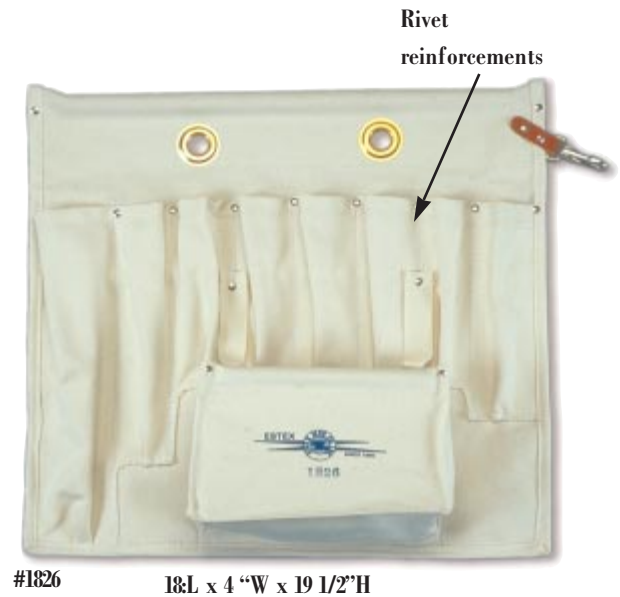

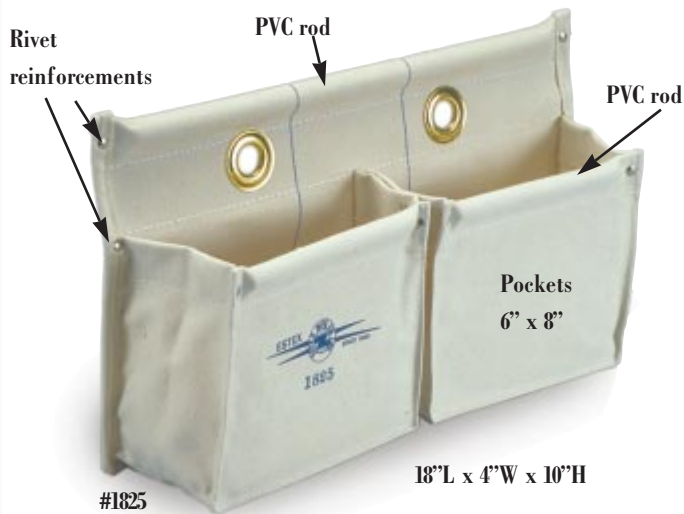

Inosil ( -7 ) Inosil corrosion shield lines pockets & bottom to lubricate tools and prevent rust. Nylon Cordura fabric is tough and will last for years.

## Tool Aprons

Estex Tool Aprons are built to last. We use heavyweight canvas or vinyl coated nylon to ensure years of service. Heavy nylon thread won't rot.

Grommets placed on aprons to use with Estex oval buckets. Put the tool apron inside and oval bucket outside to hold everything you need.

Our shipping department is ready to fill your order and get it to you promptly. We stock inventory of our cataloged items so we can ship your order the same day if we receive the order by 11 am. Orders ship via UPS, RPS or truck for fast delivery and tracking capability.

Be wary of look alikes, Estex Aprons are built to last. Be careful of cheap imitations.

Our most popular tool apron! Holds more tools and lasts for years. Vinyl pockets grip tools and don't stretch. All pockets are sewn through two layers of vinyl coated nylon plus one layer of heavy canvas. Lasts up to five times as long as fiberglass tool boards.

Drill bit holder

Grommeted drain holes

PVC cap on bottom

23 7/8"L x 4"W x 21 1/4"H

1829-DP

This apron has two innovative features: Inosil liner-protects tools, keeps them lubricated and rust free. "Hard Body" construction- a hard plastic board is sandwiched between the two layers of vinyl on the body to keep this apron totally rigid like a traditional tool board.

Use this apron in two-man buckets. Holds all your tools including ratchet cutters and crimpers, bolt cutters...everything! There is even a tape sling. Leather around top edge protects fabric from abrasion caused by frequent use of tools.

The ultimate organizer for tools, sockets, dies, bits, and materials. Used in two-man buckets.

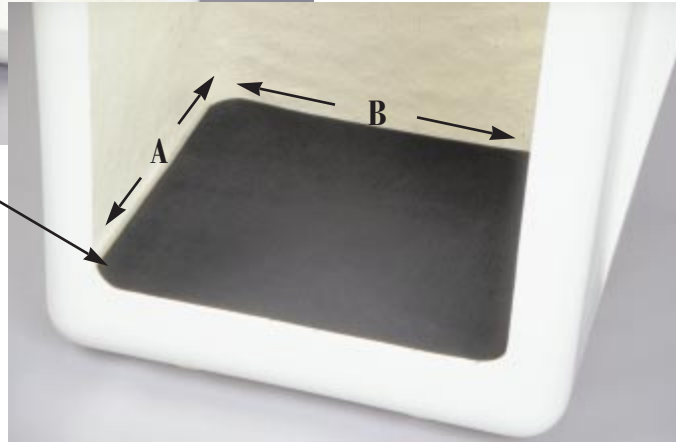

# Tool Aprons

Use Estex economical PVC hooks to attach tool aprons to your bucket. On most aprons, grommets are spaced for use with Estex Oval Buckets.

## BUCKET PADS

Measure inside your bucket at the bottom for proper fit.

Reduce back & leg strain

Prevent slipping

Protect liner from wear and damage

Provide thermal insulation in cold weather

#2708- Complete part number determined by size of bucket

Pad is 1/4 " textured rubber top layer bonded to 3/4 " closed cell foam bottom layer.

Does not absorb water!

(NO DIELECTRIC RATING)

Compression tool pockets separated by a hard board so tools won't "snag".

### Compression Tool and Bolt Cutter Bag

dimensions : 10" Top x 9" Bottom x 19" High

#2650 One pocket for compression tool and one pocket for bolt cutter.

#2651 Same as above plus two grommets for hanging inside bucket.

#2651-2 Two pockets for compression tools and one pocket for bolt cutters plus two grommets for hanging inside bucket.

Web strap carrying handle extended the entire length of bag on both sides to give balance, strength, and durability. Sturdy quick release snap and "D" ring is made part of web strap handle for easy attachment. Base of bag reinforced with leatherette. Brass grommets in base of bag and side pocket for drainage and ventilation. Side pocket holds bolt cutters.

Impact wrench holder holds wrench plus two bits. Long tube prevents bit from damaging clothing or the bucket.

6" Diam. x 24"H

Hard Body liner

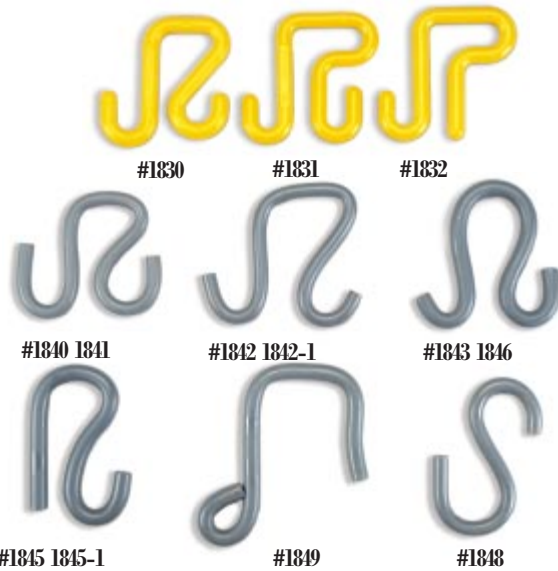

Leather protects top edge

Holds an assortment of compression tools, bolt cutters, 8' extendo stick, etc. in 2 man buckets.

#2651-5  
41"L x 25"H

ESTEX POLYMER AND PVC HOOKS FIT A WIDE RANGE OF AERIAL BUCKETS AND SERVE IN MANY APPLICATIONS.

Most hooks are designed to hold a tool apron inside the bucket and an oval bag on the outside.

Polymer hooks are molded from a mixture of plastics that give these hooks high breaking strength and resistance to cold.

- #1830 Fits all standard buckets
- #1831 Fits buckets with 3 " lip
- #1832 Fits buckets with 3 " lip, no outside hook

PVC hooks are formed from PVC rod. These hooks are economical and have a wider variety of styles.

#1840	5/8 " thick	Fits all standard buckets
#1841	3/4 " thick	Fits all standard buckets
#1842	5/8 " thick	Fits buckets with 3 " lip
#1842-1	3/4 " thick	Fits buckets with 3 " lip
#1843	5/8 " thick	Withstands greater stress
#1846	3/4 " thick	Withstands greater stress
#1845	3/4 " thick	Fits all standard buckets, no inside hook
#1845-1	5/8 " thick	Fits all standard buckets, no inside hook
#1849	3/4 " thick	Cross arm hook holds hand line for hoisting materials
#1848	5/8 " thick	"S" shape for ladders

#### Clipping & Final Inspection

As part of our quality control program, each product gets a final inspection as the loose threads are clipped and the bags are "prepped" for shipment. Even though we inspect at each step of the manufacturing process, we look the product over one more time to be sure it is right.

We are ISO 9000 compatible. U.S. Military contracts require us to meet the same protocols as ISO 9000.

## Total Quality from the Inside Out

Estex Tool Buckets have many unique features that make them EXTRA TOUGH!

**Rope Splice** - The more weight you put in the bucket, the tighter it gets.

**Molded Top Ring** - stronger than typical PVC rod taped together

Top Ring is a solid continuous, injection molded, non-metallic material

**Bottoms** - Rubber, high impact polymer\* or leather - the strongest in the industry

**Polypropylene rope** - won't rot

**Leather Side Supports** - at rope holes prevent abrasion to canvas

**Nylon Thread** - heavy nylon thread won't rot. Seams and hems won't separate

**Unique Construction** - Canvas is folded over outside stitches to protect thread from abrasion which could cause the bottom to fail. Also eliminates any "lip" to catch on poleline hardware.

\*Estex Polymer Bottom is durable yet economical. This unique blend of Co-Polymers give this bottom incredible strength and resistance to cold. Won't crack like standard plastic - won't stretch or cut like leather. We have run this bottom through the Estex "Chamber of Doom" for destructive testing and it passed with flying colors.

8"Diameter x 12"H

Plastic Bottom	Rubber Bottom	Leather Bottom	
#2022	#2020	#2021	Heavy Canvas Body
#2026	#2024	#2025	Vinyl Coated Nylon Body - Yellow
#2022-2IP			Has two inside pockets

The items below also have a swivel snap

#2030	#2028	#2029	Heavy Canvas Body
#2031	#2032	#2033	Vinyl Coated Nylon Body - Yellow

#5 3/4"Diam x 8"H

### Carney Bag

Heavy canvas with a real leather bottom  
Great for connectors, nuts & bolts and any small materials

### "Bag Folklore"

This item is sometimes called a "Nose Bag" or "Feed Bag" which derives from the days of horse drawn vehicles. There were actually round bags filled with grain which fit over a horse's muzzle to feed the horse while away from its barn.

Linemen began using these bags to hoist materials up the pole rather than climb up and down.

### Mini Tool Buckets

Used for connectors, nuts, washers and other small items  
Also used for safety awards

## Tapered Tool Buckets

10' Diam. at top/8" Diam. at bottom x 12" High

- #2048 Rubber Bottom
- #2049 Leather Bottom
- #2051 Plastic Bottom

12" Diam at top/8" Diam. at bottom x 12" High

All have heavy canvas body

- #2050 Plastic Bottom
- #2050-S Plastic bottom plus swivel snap
- #2050-S-IP Plastic bottom, swivel snap plus 15 inside pockets
- #2059 12" x 12"H Plastic Bottom swivel snap plus 14 outside pockets

## Installers Bag

Holds lots of material

Tapered bottom keeps everything in the center of the bag.

10" Diam. x 16" H

"Roping" a bucket is not like roping a steer - we put a special splice in our rope so the more weight you put in our bucket, the tighter the rope gets. "Headache" is a word you don't want to hear when you're working under an aerial basket.

2" web handle/shoulder strap

Web completely around bottom

Grommet in bottom

double ply

12" Diam. x 13"H

## Trash/Tote Bucket

If you just put trash in the bucket or use it to carry tools/materials, try this economical version.

- #2081 Heavy Canvas Body leather bottom
- #2083 Heavy Canvas Body rubber bottom with swivel snap

Put your tools and all your small parts in this one bucket

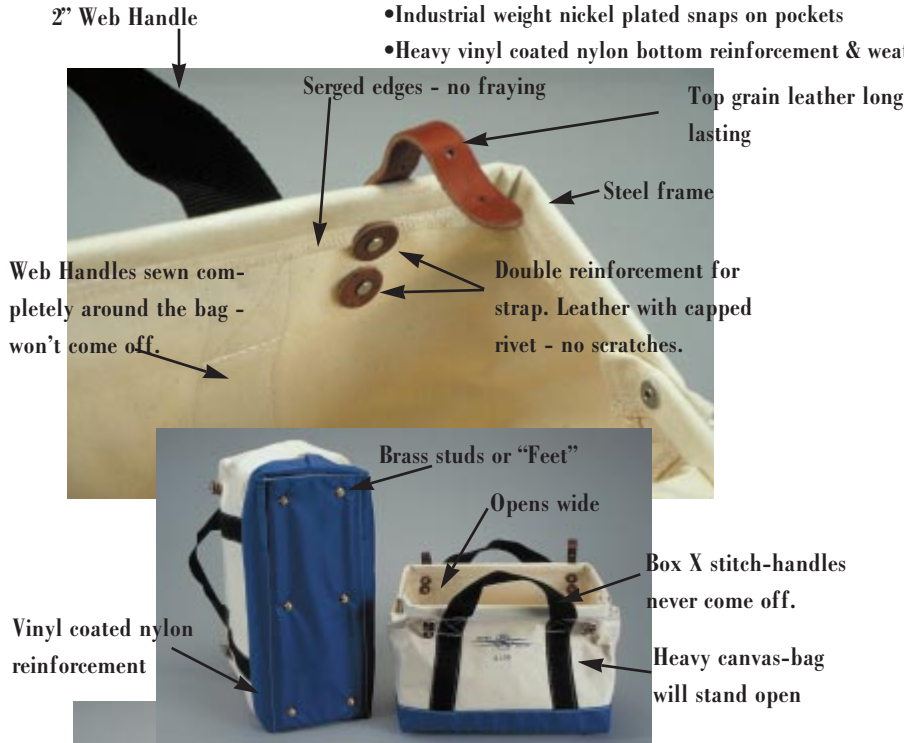

10"L x 8"W x 14"H

## Estex Tool Bags are the best on the market today!

All Estex tool bags have the following construction:

- Heavy canvas or vinyl coated nylon
- 1/4" double tempered masonite bottom
- Six brass studs on bottom
- Heavy duty polypropylene web handles sewn completely around the bag (900 lbs. break strength)
- Heavy steel top frame enclosed in canvas
- Top grain leather straps reinforced with leather, double riveted with rivet caps.
- Industrial weight nickel plated snaps on pockets
- Heavy vinyl coated nylon bottom reinforcement & weather seal.

Does your bag stand up to the Estex Quality Check?

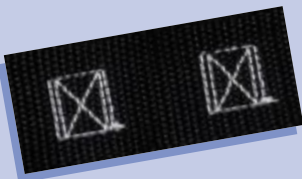

1. Open the bag, hold both handles apart and shake the bag. Set it down-does it stand up or collapse to the floor?
2. Six studs or four on the bottom of the bag? If only four, the middle could sag and scrape on the ground.
3. Handles sewn completely around the bag? Some people stop at the top of the bottom reinforcement. Look inside bag at the bottom for stitch lines.
4. Leather strap closures or plastic clips that can break?
5. Steel frame or cheap plastic frame that doesn't close properly?
6. Is bottom a solid support or can you bend bag and easily snap cheap bottom support?

# Tool Bags

### Standard Tool Bags

#4 Canvas	#8 Canvas	Length	Height	Width
#2113-12	#2114-12	12"	10 1/2"	7 1/2"
#2113-14	#2114-14	14"	10"	7 1/2"
#2113-16	#2114-16	16"	12"	9"
#2113-18	#2114-18	18"	12"	9"

Tool Bags

## TOTE BAGS - COAL BAGS - TRASH BAGS

Made with Heavy Duty Canvas for Durability

Tote Bag with shoulder strap

Stake Bags

All Bags have a 2 ply bottom. Handles wrap entirely around the bag.

#2197-1	19"L x 4"W x 20"H
#2197-2	19"L x 12"W x 16"H
#2197-3	19"L x 15"W x 16"H
#2197-4	19"L x 8"W x 16"H
#2198	19"L x 6 1/2"W x 22"H
#2199-BS	16"L x 9"W x 16"H

### "Bag Folklore"

Coal bags were actually used to haul coal to an individual's house. The side handle or "dump handle" was used to dump the coal out of the bag and into the coal bin.

Bags for a hundred different uses

7" Taller than our standard 22" tool bag. Has one inside pocket.

## Oversized Tool Bags

Carry More Gear

5" Taller than our standard 24" bag. Clear vinyl I.D. pocket for personal I.D., truck number, content I.D., etc.

Tough, water resistant  
Nylon Cordura

Pack everything in this Gear Bag.  
Great for storm duty.

## You'll find many uses for these popular bags!

Estex utility bags are constructed of heavy vinyl coated nylon with zipper closure.

#2600	17"L x 8"W x 7"H	Blue
#2601	17"L x 8"W x 7"H	Red
#2602	17"L X 8"W X 7"H	Yellow
#2608	14"L x 5 1/2"W x 8 3/4"H	Hard bottom
#2609	17 3/4"L x 9"W x 10"H	

Often used for storing safety items in cars - blankets, flares, safety vests, salt, jumper cables, tow rope etc. Also used for raingear, harnesses, tools and many other uses.

#1430	7 1/2"W x 84"L	1431

Sizes available for all sticks.

## Powder Actuated Tool Bags

#2007-AMP 10" Diam. x 12"H  
3 Large outside pockets for wedge taps  
14 Shell loops, Swivel snap

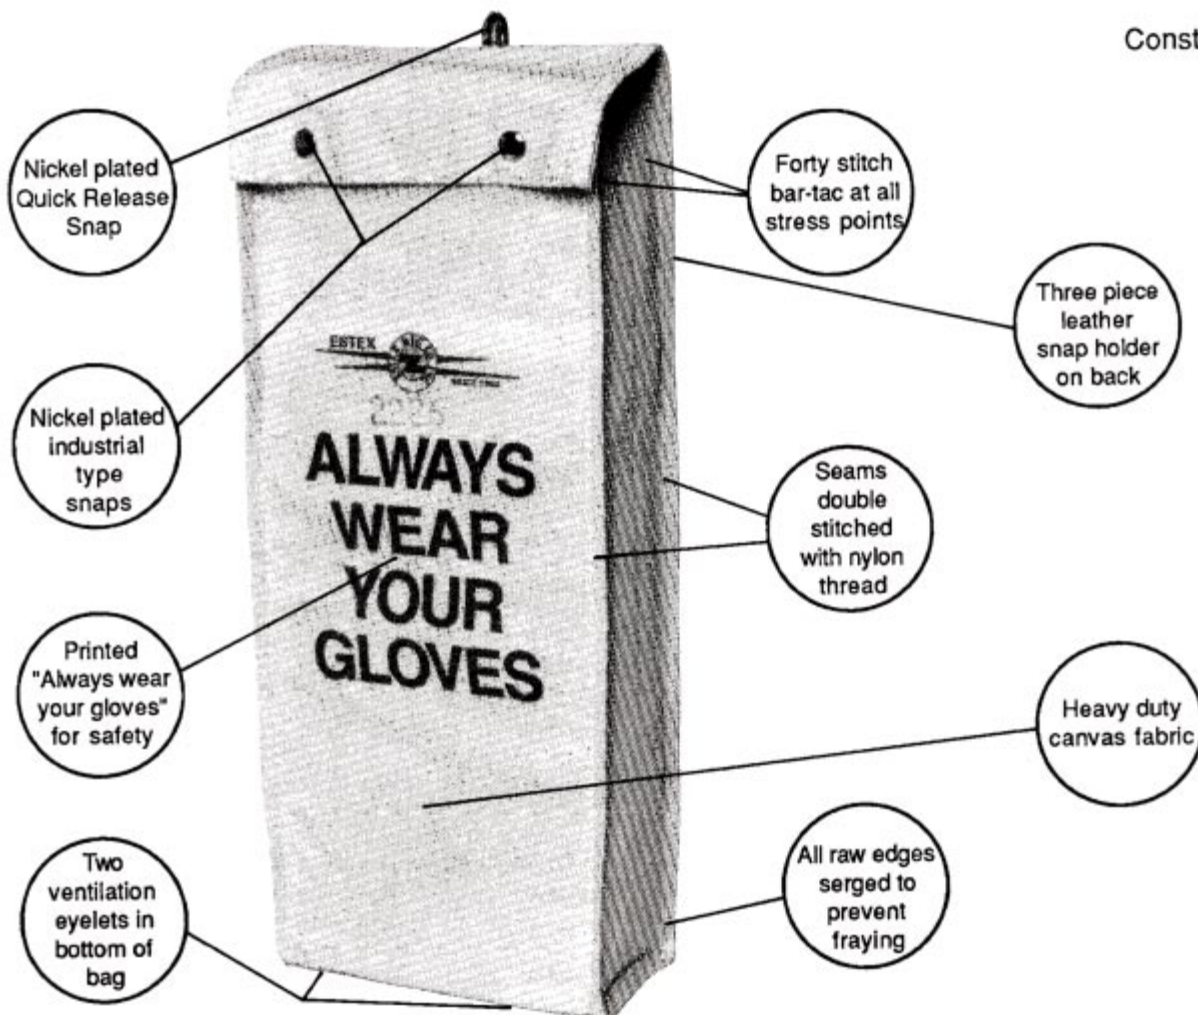

#2070-AMP-1

12" Diam x 15"H

## Estex Glove Bags - Built to Last

### Construction Details

## FOR LOW VOLTAGE GLOVES

### Tech notes:

Serging-a special machine takes three strands of thread and sews them all at the same time around the edge of a fabric. This prevents fraying-those loose strings that hang down in some canvas bags.

8"L x 2"W x 12"H

#### Without snap

#2200 Natural canvas  
#2201 Yellow canvas  
#2202 Yellow vinyl

#### With snap

#2210  
#2211  
#2212

## For High Voltage Gloves

### Tech notes:

#### Bellows' Gussett

A Gusset is a side piece sewn into a bag to give it thickness. A Bellows gusset is tapered so the bag is wider at the top for easier access.

# Glove Bags

With front pocket for safety glasses or glove dust

#### Heavy natural canvas

2250	15"H
2253	18"H
2256	20"H

#### Extra heavy natural canvas

2260	15"H
2263	18"H
2266	20"H

#### Yellow canvas

2270	15"H
2273	18"H
2276	20"H

#### Yellow vinyl

2280	15"H
2283	18"H
2286	20"H

Vecro Closures: Are optional on all glove bags. Please specify by adding "V" at the end of the product number.

Bellows Side Gussets: Are also available on all glove bags. The bottom dimensions are 3 1/2", the top gusset dimensions are 6". Please specify by adding a "B" at the end of the product number.

Front pocket is 6"L x 1"W x 11"H

### IT PAYS TO "LOOK UNDER THE HOOD" . . .

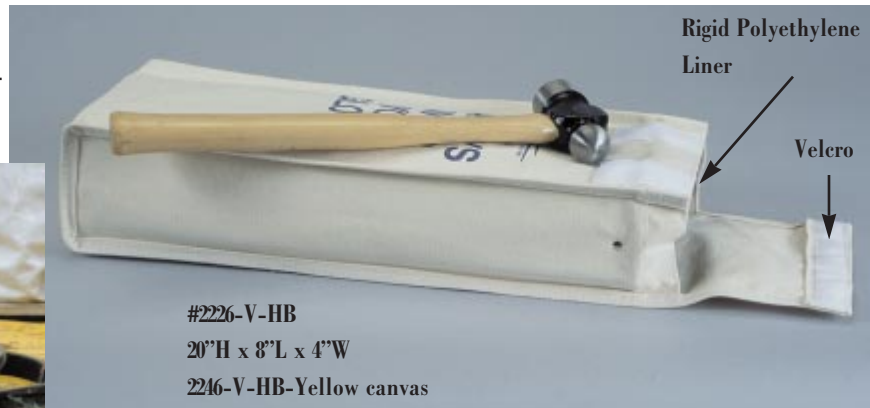

Meaning - look both outside and inside to check for quality. All Estex glove/sleeve bags have a leather patch on both sides. Otherwise the only attachment the snap has to the bag is thread. We sew and rivet through two layers of leather and then cap the rivets so there are no rough edges to scratch your gloves.

## "HARD BODY" GLOVE BAG

### Gloves & Gaffs Don't Mix

Give your gloves that extra protection they warrant. Glove bags lined with Estex "Hard Body" material.

#### Tech notes:

#### Velcro®

Velcro® is a woven nylon or polyester tape fastener consisting of two mating strips. The hook or male section is covered with stiff little hooks. The pile or female section is covered with tiny small loops. When pressed together, the hooks and loops engage, creating an adjustable, highly versatile and secure closure.<sup>1</sup>

### Combination Bag

For high and low voltage gloves

Meets all Bell specs.

Also available in yellow canvas

#2433-1 Low volt glove pocket  
7 1/2"L x 4 1/2"W x 11"H  
High volt glove pocket  
9"L w 4"W x 16"H

#### Tech notes:

#### Silk Screen

This printing process actually uses a screen made from silk fibers. The whole "screen" is coated and then the image is "burned" through the coating to allow ink to flow through.

### Traditional Glove and Sleeve Bags

All are 8"L x 6"W

#### Natural canvas

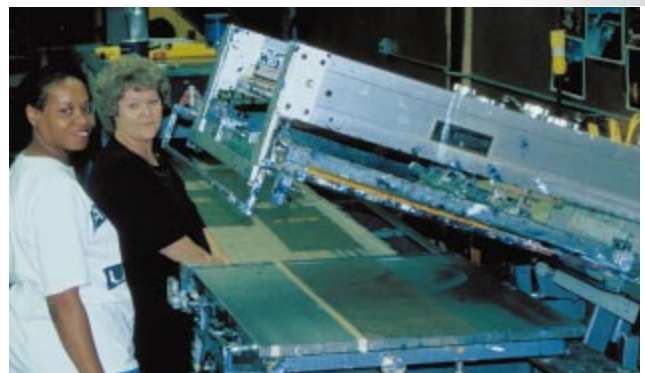

#2420 14"H  
#2423 16"H  
#2426 18"H  
#2429 20"H plus extra pocket on front for goggles or glove dust.

#### Yellow canvas

#2430 14"H  
#2433 16"H  
#2436 18"H

#### Yellow vinyl

#2440 14"H  
#2443 16"H  
#2446 18"H

Rubber Goods Storage

## Traditional Sleeve Bags

8 1/2"L at top- 6 1/2"L at bottom x 2"W x 28 1/2"H

Quick release snap on back

#2300 Natural canvas

#2302 Yellow vinyl

9"L at Top-7"L at bottom x 2"W x 28"H

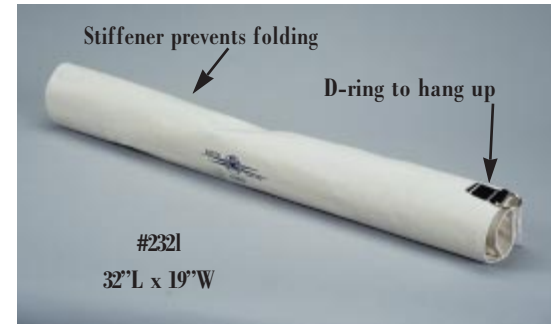

Quick Release Snap on back - plus - Snap and "D" Ring on front.

#2310 Natural canvas

#2311 Yellow canvas

#2312 Yellow vinyl

## Sleeve roll-Up

12"L at top/8"L at bottom x 4"W x 29 1/2"H

This nylon web loop with Velcro wraps around the suspenders to prevent sleeves from collapsing down in the bag. Sleeves can be stored upright for better ventilation and no creasing or folding.

## Extra large glove and sleeve bag

## Line Hose Bags

Hose Bags are sometimes used for other purposes . .

Hoisting materials up and down poles.

Hot stick "caddy" for multiple sticks on a pole or aerial basket.

## Blanket Roll -Ups

Made from pearl grey marine canvas for water and mildew resistance.

### Blanket Canisters 38" H

Replacement lids #2836-7  
#2836-10

Use canisters to store blankets and ship them to test lab.

### Blanket roll ties

#2820 1" x 14"  
#2821 1" x 21"

#2823 1" x 30"  
#2824 1" x 14"

Keep blankets rolled up for easy storage.

Hold blankets when wrapped around a pole - no need for tape.

Rubber Goods Storage

# Truck Equipment

Hang these organizers on a door panel to store and organize drill bits and files.

Bit Organizer

15" L x 21"H

Auger Bit and File Organizer

16" L x 18"H

#1306-7 same as #1306 but has Inosil on body of bag to prevent rust. See page 8

## Rescue Kit Bag

Store your rescue kit in this bag and secure it to the truck boom with the four web loops on the back. This bag has side and front flaps inside the bag plus a cover secured with Velcro and twist fasteners - keeps water out.

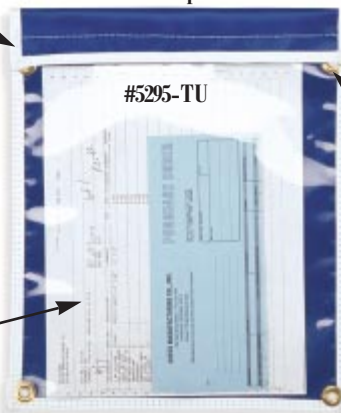

#2642-150 Holds rescue blocks plus 150' of rope

9" L x 4 "W x 8"H

## Document pouch

Velcro closure

Grommets in corners for mounting

Clear on one side to view documents

11" L x 13 1/2"H

Keep truck documents and inspection sheets clean and dry and easy to find.

## Organizer Pouch attaches to seat

## Door Pouch

Door pouches hold truck documents owners manual, operation manual, personal items or trash. Keep truck interiors clean and organized.

#1080 15" L x 3" W x 7" H

#1085 16" L x 3 1/2" W x 12" H

#2783

To secure to seat web handles attach with Velcro in back of head rest.

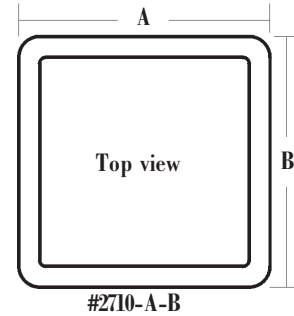

Made of rugged 1000 denier nylon.

#2710-Complete part # depends on size of bucket.

### Our Most Economical Cover

Our fitted covers are custom made to the exact size of your bucket for a snug fit. You must provide the outside lip measurements for a proper fit.

### “One Size Fits All”

This heavy vinyl coated nylon cover comes equipped with a lanyard and snap to keep the cover with the truck. It has heavy bungee cord in the hem.

#2711 Fits all one man and man and a half buckets

#2712 Fits all two man buckets

### Our Best Bucket Cover!

- Foam insert bows top to repel rain water, also helps prevent wind whip
- Equipped with a lanyard and snap
- 3/8 “ Heavy bungee cord in hem keeps this cover in place
- Because the top is foam, it can be folded for easy storage.
- Two in one feature- if this cover ever gets cut or torn, turn it inside out and continue using it.

You must provide outside lip measurements for a proper fit.  
(see diagram for #2710)

#2715-24-24 Fits 24” x 24” bucket

#2715-24-48 Fits 24” x 48” bucket

(Other sizes available)

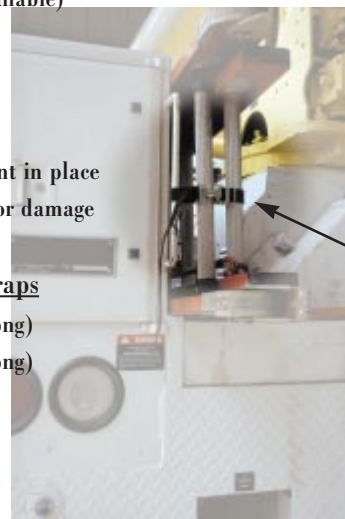

#2715-A-B

Secure equipment in place to prevent loss or damage due to shifting.

### Tie Down Straps

#3000-24 (24 “ long)

#3000-36 (36 “ long)

1” Webbing

Spring clip

# Bucket Covers

## ESTEX BUCKET PADS

### New Telecom Bucket Pads

- Stops slips
- Protects baskets/liners
- Cushions back and legs

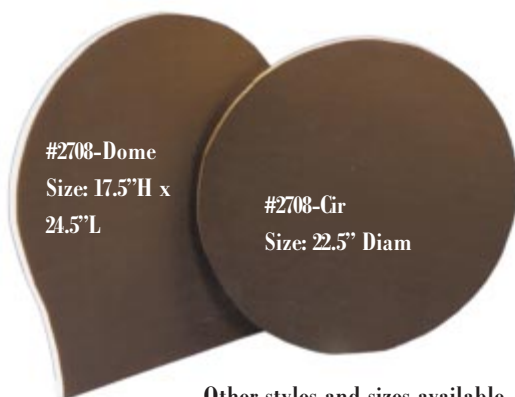

- Protect bucket from damage
- Provide non-skid surface
- Reduce stress on legs and back
- Increase thermal insulation in cold weather

Measure inside bottom of bucket for proper fit.

#2708-A-B

Pads for Telephone Industry Buckets

Part # will be 2708 "A-B"

#2708-Dome  
Size: 17.5"H x  
24.5"L

#2708-Cir  
Size: 22.5" Diam

Other styles and sizes available

## AUGER COVER

Keep mud off truck and truck bed  
Keep rocks and dirt from hitting passing cars.

## TARPS AND GROUND COVER

Fabric: Estex Tarps and Tool Sheets are made from both 10 oz. and 18 oz. vinyl nylon fabric - Which weight you choose would depend on the application. Vinyl nylons are strong and abrasion resistant and won't crack in cold weather.

Colors: Specify the color you want from the following: Black, White, Yellow, Blue, Green, Red, Orange

Construction: Our standard tarps have a three-ply hem to hold grommets better. All internal seams are heat welded. Grommets are brass so they won't rust. We use nylon thread to prevent rotting.

Estex carries one of the largest inventories of raw materials and finished goods in the industry. Our volume allows us to provide you the best fabrics at competitive prices. . . One reason why Estex bags are the best value.

## KNIVES, SCISSORS, & SHEATHS

### "FOLDING KNIVES"
